## *WS Exclusive Sales Promotions*

To whom it may concern.

Hi, I'm Wentzel Barnard and my partners name is Sonica Coetzee, we own a private independent business in Namibia called WS Exclusive Sales Promotions.

WS Exclusive Sales Promotions is a company which specializes in improving the standard as well as comfort of living quality in Namibia, by introducing new and never before seen products available internationally.

We came across Fire Stryker in South Africa. Within two weeks of returning to Namibia a canvas bag filled with hunting equipment and an ammunition belt containing live ammunition caught fire inside a small room in a thatch roofed lodge. By the time we reached the commotion, the flames were reaching for the roof. Bullets were flying in every direction. We assessed the situation and extinguished the violent fire by using our newly purchased Fire Stryker. The Fire Stryker was truly amazing in action. We were able to extinguish the fire in seconds and saved the lodge from lighting up. There was no cleaning up to do of foam residue that other fire extinguishers contain. .

The cost difference between Fire Stryker and conventional extinguishers is impressive.

With the spreading of this news, we found that the demand for the Fire Stryker extinguishers is huge in Namibia. In Namibia we have no system comparing to yours, the only alternative is the old bulky, heavy and more expensive extinguishers available on the market. In Namibia the law states that one needs to have an extinguisher in all vehicles exceeding 3000kg. The Fire Stryker is especially convenient for vehicle safety.

After seeing the results of the Fire Stryker we, WS Exclusive Sales Promotions would like to introduce and distribute your product in Namibia.

We would like to know the process of becoming the distributors of Fire Stryker in Namibia.

Look forward to hearing from you

Kind Regards

WS Exclusive Sales Promotions Team
